A POWERFUL LEGACY | *Engineering the Future™*

Introducing **500N™** 450 Amps HEAVY DUTY HIGH OUTPUT ALTERNATOR Transit & Coach Applications

- **Brushless & sealed design for longer life & reliable performance**
- **Quiet operation from a fan free design**
- **Same package size and plumbing style as existing model for transition ease in implementation**
- **Oil cooled to withstand extreme transit bus engine temperatures**

Specifications	
Alternator Design	Belt Drive /Oil Cooled/24 Volt
Temperature Rating (Oil)	121°C / 250°F
Efficiency Rating	78%
Mount	Cradle
Length	453 mm/ 17.83 in
Weight	49.8 kg / 109.7 lbs
Drive End Bearing	72mm/2.44 in
Stator Diameter	241mm/9.49 in
Remote Sense	Standard with 50VR Regulator
